

PROFESSIONAL SUMMARY

Full-stack developer with 10 years of experience building and optimising web applications, specialising in Laravel, React, and modern web application architecture. Comfortable owning projects end-to-end, from API design to front-end implementation and DevOps deployment.

Tech stack: Laravel, PHP, React, Next.js, TypeScript, REST APIs, Docker, WordPress, Drupal

WORK EXPERIENCE

Backend Developer | CACI (formerly Cyber-Duck)

January 2024 - Present

London, UK

- Doubled page speed and halved bandwidth on high-traffic e-commerce sites with targeted performance optimisation
- Improved SEO metrics for multiple clients, driving measurable organic traffic growth

KEY PROJECTS

Scott Country - Laravel e-commerce platform

Worcester Bosch - Post-sale platform for guarantees and support, built with Laravel and React

Founding Engineer | Soundpickr

May 2022 - October 2023 (1 year, 5 months)

London, UK

- Architected and built a REST API platform using Laravel and multiple Next.js / Vite front-ends from the ground up
- Integrated Spotify API to ingest and maintain metadata for ~7M artists
- Built an audio upload pipeline to transcode audio files to MP3 and store them on AWS S3
- Achieved 50% user growth in 2 months through SEO and performance improvements

KEY PROJECTS

Soundpickr - SaaS music streaming platform for businesses: Laravel API with multiple Next.js frontends for artist profile management and music uploads

Web Developer | Purr

November 2018 - May 2022 (3 years, 5 months)

London, UK

- Led development on WordPress and Drupal projects, modernising codebases to be Composer-based and deploying them through CI/CD pipelines on Kinsta and Ploi
- Published the company's first Drupal 8 multisite, enabling rapid provisioning of additional sites

KEY PROJECTS

Mathys & Squire - Scalehub Quarter - Bespoke React + Gutenberg blocks build, attached to the main M&S WordPress multisite

Elder - Migrated content from Contentful into React Gutenberg blocks on new WordPress installation

Brompton - Custom ACF Gutenberg blocks-based WordPress website

Stephenson Harwood - Drupal 9 multidomain with automatic page generation based on content and domain mapping

Freelance Web Developer | Piero Nanni

March 2016 - Present

Bologna, Italy and London, UK

- Delivered a range of personal and client projects spanning WordPress, Drupal, Laravel and React

KEY PROJECTS

KrakaTech - News service

Kobra PDF - PDF service

OctoURL - Shortlink service

SneakNote - Send encrypted auto deleting messages

BackgroundRemover - Image processing tool

PetsMemorialParks - Pet memorial project

Wealth Certifier - PDF certification platform for wealthy people

RIPMoney - Concept for simplified ways of sign up and handle credits via Stripe

Piero Nanni.me - Personal website

La Buona Bottega - Food and drinks e-commerce built in Drupal 8 and Ubercart

Sara Anna Nadalini - Old WordPress website converted to Next.js, now small and fast

Web Developer | Magic

May 2015 - June 2018 (3 years, 1 month)

Bologna, Italy

- Owned production output for 2 of 3 years, developing and maintaining WordPress and Drupal sites
- SEO-optimised sites across WordPress, Drupal and Magento, achieving improved Google rankings

KEY PROJECTS

EuroGru Amici - Bootstrap based Drupal 8 website

Bed & Breakfast Farinelli - Mobile and SEO optimisations

Oleodinamica Bolognese - Showcase website for a local company rebuilt in Drupal 8

Montico - Drupal 7 showcase website, with an internal URM

Edilforme - Property developer showcase website built in Drupal 7

Arredart - Drupal 7 showcase website to exhibit the stands built by the company

I Portici Hotel - First Drupal 8 of the company

OkBedAndBreakfast - First Drupal 7 project that was assigned to me

Centro Carrelli - WordPress electric transpallet display window website

Bologna, Italy

- Learned and applied 3D modelling (Milkshape, 3ds Max) for game/software assets (video examples)
- Built and maintained the company WordPress showcase site
- Handled database integrations for in-house applications

KEY PROJECTS

BlackRaven - WordPress website to showcase all the apps and software we developed
